### Objective

The main objective of the “Field survey-II” is to pursue a current problem in any field of universe of knowledge to explore its resources and products in different media and thoroughly highlight recent products in the form of Documentation list of about 100 items with abstract/ annotation for each item. This will help the student to learn harvest the resources and their products and equally organize or customize to make it marketable.

### Method of Instruction

The students will be divided into groups( 5-8 each under a supervisor) who will coordinate and initiate their activities in developing a “DocumentationList” on a topic surrounding various disciplines. Each student is required to work independently and submit a report on the approved format of the approved micro- subject. The topic approval will be regulated by the Ethics committee of the Department comprising at least four senior faculty members .The evaluation of the report will be made by the Department committee to be constituted for the purpose from time to time.
